

# Key Stage 4 - Supporting your Child

*Cyfnod allweddol 4 - cefnogi eich plentyn*

## Information for Parents and Guardians

*Gwybodaeth i rieni a gofalwyr*

We believe in the limitless capacity for everyone to achieve great things

Even when it is difficult.  
Especially when it is difficult.

100% all the time

Make the most of now

We believe in the limitless capacity for everyone to achieve great things

Standards at Key Stage 4 have continued to improve at KHS. Our pupils reflect the ethos of the school demonstrating high levels of engagement and motivation in their learning. The school continues to develop a positive learning culture -with consistently high quality teaching and learning, enabling pupils to make excellent progress.

During Key Stage 4, parents and carers will be kept up to date with their child's progress through interim reports, full reports and parents' evenings. Pupils will have many different assessments throughout Key Stage 4, including internal and external examinations and controlled assessment tasks. The school will keep parents/carers and pupils updated of any unforeseen alterations to the assessment process throughout the year.

This booklet aims to...

- Explain key dates and advice for parents and carers
- Outline sources of further support and information

What we do to support revision in school

- Pupils will be provided with advice regarding revision techniques by their subject teachers. They will also be provided with some revision materials, where appropriate, and directed to helpful resources.
- Subjects will provide additional revision sessions which pupils are encouraged to attend. These can take place at lunchtime, after school or even during the holidays. Subject teachers will make pupils aware when they are taking place.
- We provide additional revision support to certain pupils at risk of under achievement when necessary. This takes a variety of forms. Some pupils/classes may receive support during their lessons via an additional adult who may be a teacher or teaching assistant. Another form of support is when pupils are withdrawn from lessons to be taught by a teacher or a specialist teaching assistant in small groups.
- Prior to examinations the school will be planning to run Walking Talking Mocks (WTM). These will take place during the school day for all core subjects prior to exams.
- In addition to this, the Post 16 Resource Area in Upper School is available from Monday to Thursday for an hour after school to support pupils independent learning.

### Section A (20%) – Reading (40 marks) (1 Hour)

- Answer questions on different extracts;
- There will be at least five texts;
- This section will also include an editing task focusing on understanding short texts (2.5% of qualification total).

### Section B (20%) – Writing (40 marks) (1 Hour)

- One writing task from a choice of three: description (describe a moment in time or a travelogue), narration (story) or exposition (discursive essay);
- This section will also include one proofreading task focusing on writing accurately (2.5% of qualification total);
- 20 marks for this section will be awarded for content (meaning, purpose, readers and structure) and 15 marks for writing accurately (language, grammar, punctuation and spelling).

## Unit 3 Exam 40% 2 hours Reading and Writing Argumentation, Persuasion and Instruction

### Section A (20%) Reading (1 Hour)

- Answer questions on different extracts;
- There will be at least five texts.

### Section B (20%) Writing (1 Hour)

- Two writing tasks (Letter/article/speech/review etc.)
- No choice;
- Linked thematically to Section A;
- 10 + 10 for each task;
- Half of the marks for this section will be awarded for content (meaning, purpose, readers and structure) and the other half for writing accurately (language, grammar, punctuation and spelling).

## Accuracy

**Half of the marks for the oracy and the writing sections are for accuracy;**

Pupils must be able to write in full sentences and spell words correctly;

They must be able to shape sentences for effect.

## How can you support this?

- Proof reading activities;
- Editing tasks;
- Encourage your child to speak in full sentences.

## Support we offer

As a department we are keen to provide as much support as we can to pupils. Staff provide revision sessions at lunchtime and after school closer to exam periods. These will be updated regularly and posted on the English office door and near form rooms. We also record revision sessions on key exam skills, which can be accessed by pupils at any time on Google classroom. We use the school's In Touch system to regularly send out information to parents. Please ensure that the school has a current valid email address so that we can contact you in this way.

### **Pupils say they can't revise for English ... they can!**

Encourage your child to read. This does not have to be novels but could be articles about things in which they are interested:

- Newspapers;
- On-line/Articles;

### **How can you help with revision?**

Ask questions about their reading of newspaper and magazine articles:

- What does [this word] mean?
- What is the article about?
- Who is the audience and how do you know?
- What is the attitude of the writer to the topic and how do you know?
- Does the article show bias? How?
- What is the purpose of the article?

### **What does revision look like?**

- Pupils might make revision 'how to videos' on specific question types (Explain Everything, Snitch);
- Record success criteria / writing layout on a mobile phone / tablet and play back when doing something else;
- Peer tutoring work with a partner and teach them the success criteria for different question types;
- Complete practice papers / questions - electronic and paper form
- BBC Bitesize;
- Completion of proof reading tasks;
- Short burst tasks making use of provided GCSE Spelling, Punctuation and Grammar books (CGP) and other commercially available revision guides;
- Examine modelled answers for D/C and A/A\* grades;
- Summarise success criteria for various reading questions;
- Summarise formats for different types of writing;
- Highlight key facts from articles;
- Learn key words or phrases for responses.
- Use spider diagrams, mind maps or make revision cards;
- Use mnemonics to remember information.

## Mathematics

### Qualification information

Your child will take two mathematics qualifications. These are GCSE Mathematics and GCSE Mathematics-Numeracy.

The examination board is WJEC.

Each qualification has two examinations, one is taken without a calculator and a calculator is allowed for the other. For the two qualifications, pupils will take four examinations in total.

There is no coursework and no controlled assessment.

There are three tiers of entry. These grades available for each tier are shown below.

Higher	A*	A	B	C				
Intermediate			B	C	D	E		
Foundation					D	E	F	G

We may enter different qualifications at different tiers e.g. higher for mathematics, intermediate for mathematics-numeracy. Your child will know their tier of entry.

### Support we offer

As a department we are keen to provide as much support as we can to pupils. Staff provide after school revision sessions and a timetable detailing when these are available is earlier in this document.

Some of the maths department have twitter accounts, which can be followed at @KHSMrsCMaths @KHSMrsCTMaths, @KHSMrsT, which tweet general revision tips and occasional questions. In addition, we use the school's In Touch system to regularly send out information to parents. Please ensure that the school has a current valid email address so that we contact you in this way.

### What you can do to help your child?

Helping your child take a positive approach to mathematics will be beneficial. In the UK many people lack confidence in this key subject but being negative and making statements such as "I don't like maths" or "I was never any good at maths" makes it difficult for children to understand why they need to learn the subject.

In addition to the general revision advice provided you can also encourage your child to:

- Spend time on their mathematics homework ensuring they complete and understand the tasks set;

- Seek support when necessary. If they are struggling in class or with homework they should ask their maths teacher for help. If homework is proving challenging they should see their teacher before it is due to be handed in, if possible;
- Come well equipped to their mathematics lessons and tests. They will need a pen, pencil, ruler, a pair of compasses, an angle measurer or protractor and a scientific calculator. We recommend the Casio Scientific calculators that are available to buy in school or most supermarkets as the screen allows the user to see the entire calculation entry, thus reducing the chance of errors;
- Pay attention to and act on the advice of their teacher's feedback. Feedback may be verbal or written. If they have missed work or not completed tasks this will be identified in their exercise books and should be completed as soon as possible. They should always try to correct any incorrect work and ensure they understand where they have gone wrong.

## Sources of further support

### Revision Guides

It is not essential to buy a revision guide but some pupils find them helpful. Hodder Education produce the only revision guide associated with the WJEC qualifications your child is sitting and these are available in shops or online. If you have mathematics revision guides already that you have purchased for older children these will still be useful but be wary that there are now different tiers and additional content on the GCSE so these should be used in conjunction with the revision list for the correct tier.

## Science GCSE

### Qualification information

There are two main pathways that pupil can follow in studying GCSE Science.

### Triple Science

If your child is sitting triple science, they will sit three examination courses in Biology, Chemistry and Physics. Each course has three elements of assessment.

Assessment	% of overall examination	Year in which assessment takes place
Unit 1 Exam	45%	Year 10 (June)
Unit 2 Exam	45%	Year 11 (June)
Unit 3 ( Practical exam)	10%	Cancelled by exam board

- The examination board is WJEC;
- Calculators are allowed in all examinations;
- For each series:
  - weighting for the assessment of practical skills will be a minimum of 15%.
  - Weighting for the assessment of mathematical skills will be a minimum of 20%
- There are two tiers of entry. These grades available for each tier are shown below;

Higher	A*	A	B	C				
Foundation				C	D	E	F	G

## Double science

If your child is sitting Double Award Science they will attain two GCSEs at the end of Year 11 through a mixture of Chemistry, Biology and Physics assessment.

Assessment	% of overall examination	Year in which assessment takes place
Unit 1 Biology	15%	Year 10 (June)
Unit 2 Chemistry	15%	Year 10 (June)
Unit 3 Physics	15%	Year 10 (June)
Unit 4 Biology	15%	Year 11 (June)
Unit 5 Chemistry	15%	Year 11 (June)
Unit 6 Physics	15%	Year 11 (June)
Unit 7 Practical exam	10%	Year 11 (January)

- The examination board is WJEC;
- Calculators are allowed in all examinations;

Higher	A*	A	B	C	D			
Foundation				C	D	E	F	G

## Support we offer

As a science faculty we offer a range of lunchtime and after school sessions which help pupils improve their knowledge, understanding and exam technique. We provide digital materials for home learning which include revision material, past paper questions and model answers. These are given in bite size chunks to pupils prior to internal tests so that pupils can prepare thoroughly for internal tests. Mr Hebert-Jones runs extra tutorial sessions for pupils identified in needing further help and support during registration. Resources for independent learning and revision can be found on Google classroom and Educake platforms. If pupils are absent then work can be accessed through these sites.

## What you can do to help your child?

- Provide a structure and routine for your child to enable their independent learning. Pupils must produce revision notes throughout the year, which should be short summaries of key words and key concepts. These could be done weekly at a regular time;
- Science homework are usually past paper questions requiring concise responses. Often pupils need help in summarising their answers and including all key words;
- Provide written feedback in your child's books of concerns regarding their learning and understanding;

- Ensure that your child is well equipped for the lesson. Most science lessons require access to a calculator, 30cm ruler, pen, pencil and glue;
- Read the feedback provided by the classroom teacher. This will provide information for targeted support;
- Check that your child has copied up any missing work as a result of absences;
- Practice past paper questions. These are available on the WJEC website as are the answers. Those pupils who regularly do this soon realise they are only a finite number of questions that can be asked and this produces confidence and improvements in exam technique;
- Mathematics and interpretations of patterns in graphs form a large proportion of the marks available in the exams. Focused practice and support here could gain valuable marks.

## Key Contacts

We welcome contact from parents/guardian when you have any questions or issues you need to discuss. For subject specific matters we ask that you contact your child's teacher through your child in the first instance, where possible, before contacting the KS4 Leaders.
